Workshop Descriptions

**These workshops are open to all members of the general public.
Please register in advance at our reception desk.**

Interview Skills:

This workshop is designed to give participants the tools to prepare for their next employment interview. We will cover everything from how to prepare in advance, how to answer questions during the interview, and what to do after.

Strategies for Finding Work

The workshop will focus on the difference between an active versus a passive job search, how employers prefer to hire, networking, informational interviews, telephone strategies and the importance of keeping track of the jobs you have applied for.

Kickstart your Job Search

Join us for this interactive session where we'll discuss how to personalize your job search. We'll help you get organized, complete applications, rev up your resume, charm them with your cover letter, find 'hidden' jobs and ensure you are aware of all the resources available for job seekers today!

**These workshops require a referral from an Employment Advisor at our centres.
Please ask at the reception desk for more information.**

Crossroads – A Career Direction Workshop

This workshop will introduce you to the steps necessary for successful career decision making. You will receive helpful information and resources you can use to conduct the research necessary to make decisions about your future. We will discuss factors that can “get in the way” of moving forward and making decisions as well as look at how setting S.M.A.R.T. goals can increase the success of your career plan.

Personality Dimensions

Personality Dimensions is a self assessment tool used to help individuals examine their own style, temperament, and work values. The workshop is highly interactive and fun. You will leave the workshop with a better insight into what you have to offer a working team and with a feeling of pride of who you are and what you will bring to an employer. This is the Canadian version of True Colours!
